St. Luke's Wood River Medical Center, Ltd. serves the health care needs of people living in the greater Blaine County area.

The criteria used in selecting this area as the primary service area was to include the entire population of the county or counties where greater than 70% of the inpatients reside. The residents of Blaine County comprise about 74% of inpatients served.

Both Idaho and the primary service area are comprised of about 95% white population while the nation as a whole is 72% white. The Hispanic population in Idaho represents 11% of the overall population and about 20% of the defined service area.

Idaho experienced a 21% increase in population from 2000 to 2010 ranking it as the fourth fastest growing state in the country. Blaine County has followed that trend experiencing a 13% increase in population within that timeframe. The service area is expected to grow by over 20% by the year 2020. St. Luke's Wood River is constantly working to manage the volume and scope of its services in order to meet the needs of an increasing population.

Part VI Supplemental Information

Over the past ten years the 45 to 64 year old age group was the fastest growing segment of the service area. Over the next ten years, however, the 65 years or older age group is expected to grow by about 50% making it the fastest growing segment. Currently, about 12% of the people in the service area are over the age of 65, and by about 2020 about 19% of the population is expected to be over the age of 65.

The official United States poverty rate increased from 13.3% in 2005 to 15.3% in 2010. The service area poverty rate has also increased since 2005. In 2005 it was 7.1% and by 2010 it was about 10.1% but still well below the national average. The poverty rate in the service area for children under the age of 18 is 14.6%, which is also up over the past several years but well below the national average.

Median income in the United States has risen by 8% since 2005. Despite decreasing by over 10% since 2007, median income in Blaine County is still significantly higher than the national median income.

Form 990, Part VI, Section B, line 11:

The Form 990 is reviewed by an independent public accounting firm based on audited financial statements and with the assistance of the organization's finance and accounting staff. The final draft of the 990 is made available to the Finance Committee of the Board of Directors. The Board receives the final version of the Form prior to filing.

Form 990, Part VI, Section B, Line 12c:

The organization annually reviews the conflict of interest policy with each board member and also with new board members. Persons covered under the policy include officers, directors, senior executives, non-director members of Board committees and others as identified by a senior executive. At all levels the board is responsible for assessing, reviewing, and resolving any conflicts of interest that have been disclosed by a covered person, or a conflict of interest disclosed by a covered person with respect to a covered person other than himself/herself. Where a conflict exists, the affected parties must excuse themselves from participating in the situation.

Form 990, Part VI, Section B, Line 15:

Executive compensation is set by St. Luke's boards of directors and is reviewed annually. Compensation levels are based on an independent analysis of comparable pay packages offered at similar institutions across the country, with the goal of placing executives in the 50th percentile of

those surveyed. Similar analysis is also completed by St. Luke's leadership for physicians and other health care specialties such as nurses and pharmacists. These surveys are usually done every two years, with the most recent compensation survey completed during calendar year 2012.

St. Luke's Health System is committed to providing the highest quality medical care to all people regardless of their ability to pay.

To keep that commitment, St. Luke's puts a great deal of time and effort into recruiting and retaining the top physicians in a variety of medical fields. Our relationships with physicians range from having privileges at the hospital to full employment.

For those physicians who choose to be employed, St. Luke's must offer competitive pay and benefits.

Physician compensation is based on a range of criteria and can be influenced by a number of variables including:

- Community need for medical specialty
- Experience
- Productivity
- Geography
- National surveys adjusted for local conditions
- Willingness to serve regardless of patients' ability to pay
- Duration of relationship and contractual terms
- Performance on quality metrics

To ensure physician compensation and benefits remain within industry

standards and legal requirements for not-for-profit institutions, St.

Luke's has a Physician Arrangements policy that specifies circumstances requiring a third-party valuation and also periodically uses third-party consulting firms to review St. Luke's physician compensation arrangements.

Given the growing national shortage of physicians, recruiting and retaining physicians is more critical than ever to guarantee that people seeking care at St. Luke's will continue to have access to the physicians and specialists they need regardless of their insurance status or insurance provider.

The organization's governing documents, conflict of interest policy, and financial statements are not available to the public. Form 990 is available for public inspection, which contains financial information.
